

3 Things That Your Website Needs In Today's World

INTERIOR DESIGNER'S BUSINESS SCHOOL

THE WEBSITE NEEDS TO BE RESPONSIVE

It is important that your website looks good, not only on your laptop and desktop computer but also on a tablet and mobile phone.

THE WEBSITE NEEDS TO BE DELIVERED OVER THE HTTPS PROTOCOL

Your website connection needs to be encrypted to provide a secure flow of information between your client's computer and the server

YOUR WEBSITE NEEDS TO LOAD RELATIVELY FAST

Make sure that the content of the website is delivered at a decent speed (max 5-6 seconds)
